SUMMARY

Enthusiastic and dedicated Front-end developer with more than 1.5 years of coding experience. Seeking a dynamic tech company that aligns with my passion and complements my expertise.

EXPERIENCE

Freelance developer

- Level one seller at Fiverr, specializing in front-end development.
- Developed and delivered front-end projects for clients with a focus on user-friendly interfaces and responsive design.
- Collaborated with clients to understand their requirements and provided technical expertise to turn their ideas into functional web applications.

Open source contribution

- Actively contributed to multiple open-source projects on GitHub.
- Submitted valuable pull requests to fix bugs and enhance features.
- Received positive feedback from project maintainers and peers.

PROJECTS

React Dashboard

<https://mhasan1037.github.io/react-dashboard/>

- Created a multi-page React dashboard showcasing various data presented through interactive graphs.
- Implemented a user-friendly calendar feature allowing users to add and manage events seamlessly.

E-commerce Website — HTML, CSS & JAVASCRIPT

<https://mhasan1037.github.io/E-commerce-2/>

- Developed a fully functional and responsive E-Commerce website front-end.
- Designed a user-friendly shopping cart feature, enabling customers to add products and manage their selections.
- Designed a user-friendly shopping cart feature, enabling customers to add products and manage their selections.

React Stock Website

<https://mhasan1037.github.io/stock-app/>

- Developed a live stock information website with real-time data and historical information for different companies' stocks.
- Implemented a user-friendly search feature and interactive charts to facilitate easy access and analysis of stock information.
