## SUMMARY

Enthusiastic and dedicated Front-end developer with more than 1.5 years of coding experience. Currently thriving as a freelance front-end developer at Fiverr. I continuously push the boundaries of my skills to create captivating and impactful user interfaces.

## PROJECTS

### React Dashboard

<https://mhasan1037.github.io/react-dashboard/>

I have created this multi-page react dashboard. Different data is presented with different graphs. It has a calendar where users can add events. It also has a chat page.

### E-commerce Website — HTML, CSS & JAVASCRIPT

<https://mhasan1037.github.io/E-commerce-2/>

I have built this functional and responsive E-Commerce website front-end, where a customer can view products, add them to a cart, and place an order. I built JS components for different reusable parts.

### React Stock Website

<https://mhasan1037.github.io/stock-app/>

I have built this live stock information website. It will provide you stock information of different companies. If you search a stock ticket/name, you will get all data of present market with charts and last one year's information.
